Introduction

The New Sleek Designed **MT Box** will change the way you repair your phones by allowing faster Flashing, Repairing and Unlocking time. And as your personal, portable phone service device, **MT Box** looks good but works good aswell.

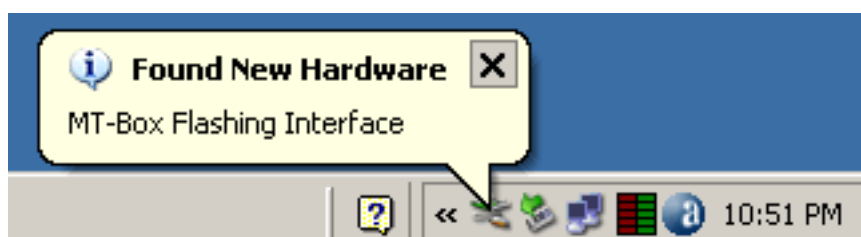

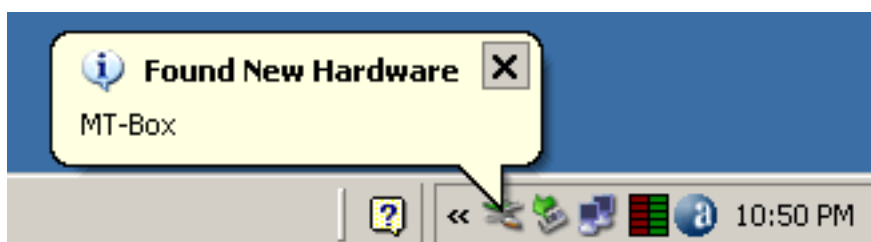

Its compact and portable design, makes it easy to take it along anywhere with you. **MT Box** which is powered by **Griffin Team**, supports the newest Nokia or SonyEricsson phones (SCME base) in the market.

Download [MT Update tool v3.5](#)

then unpack into your HDD

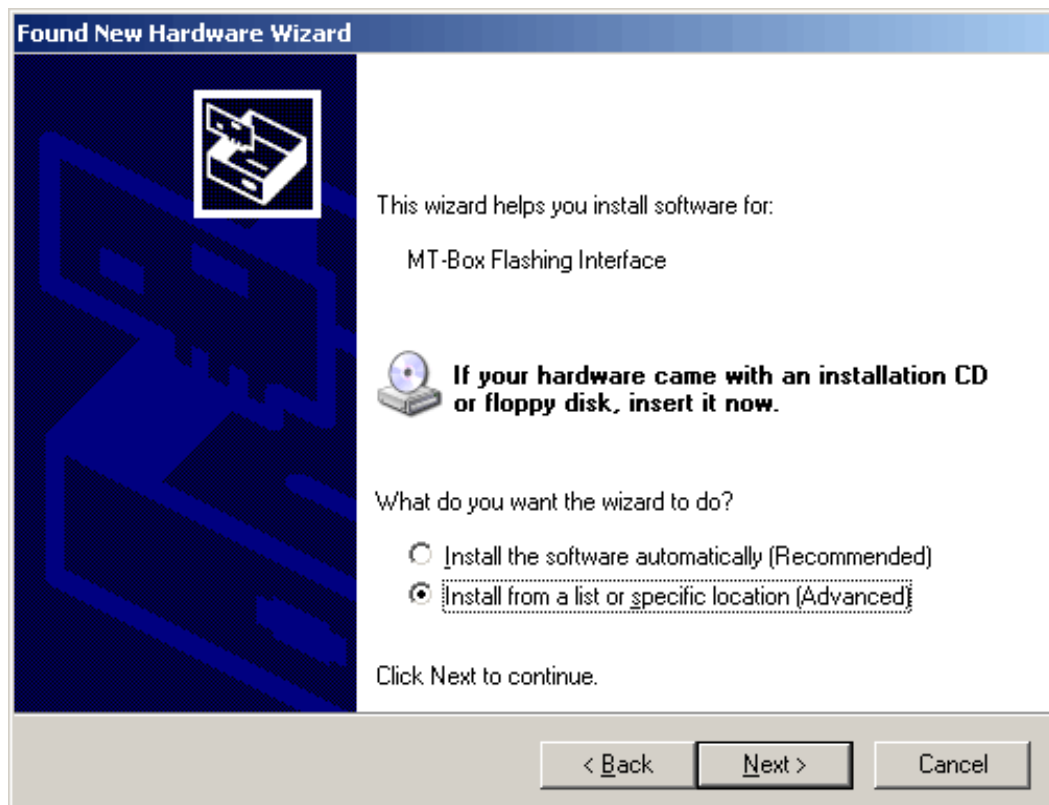

Connect MT box to USB, Windows will detect new hardware

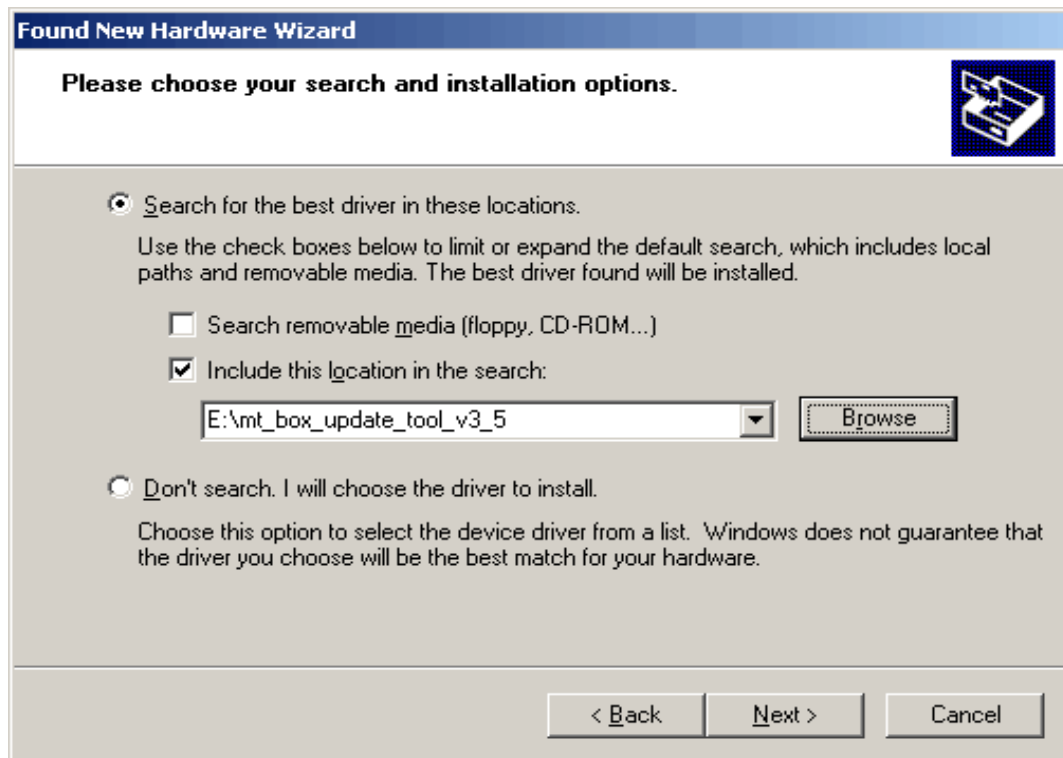

Select "No, not this time", then press Next button

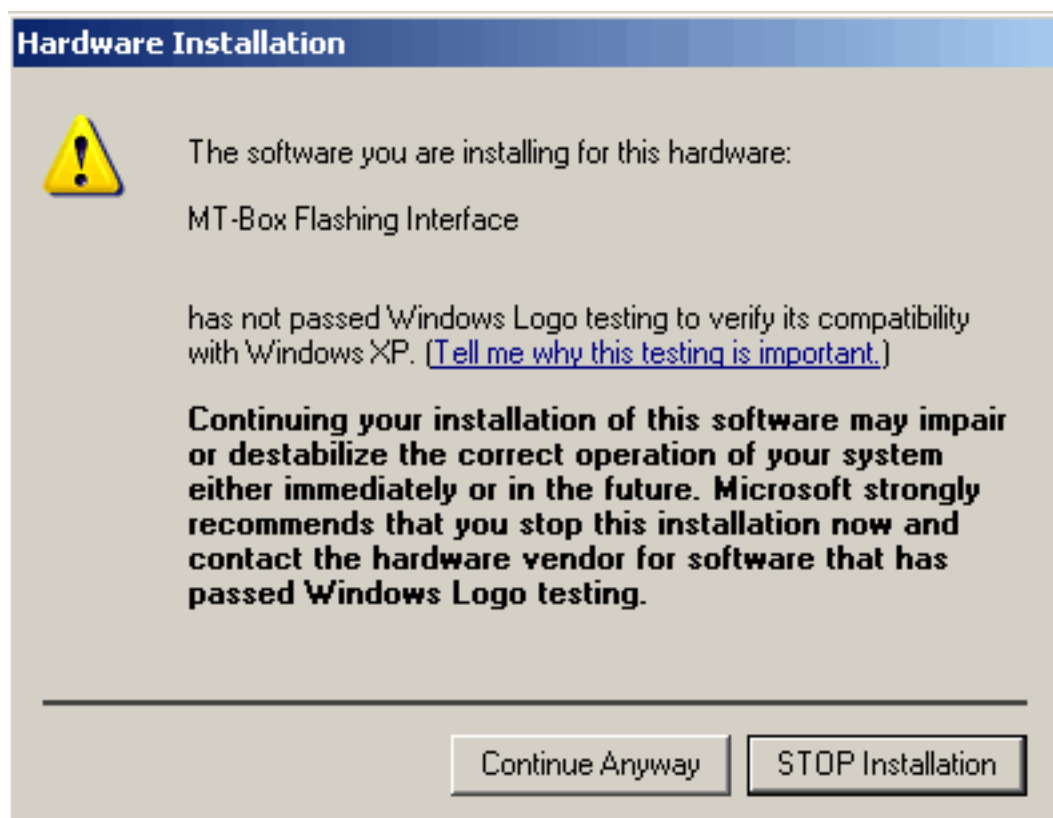

Select "Install from a list or specific location (Advanced)", press Next

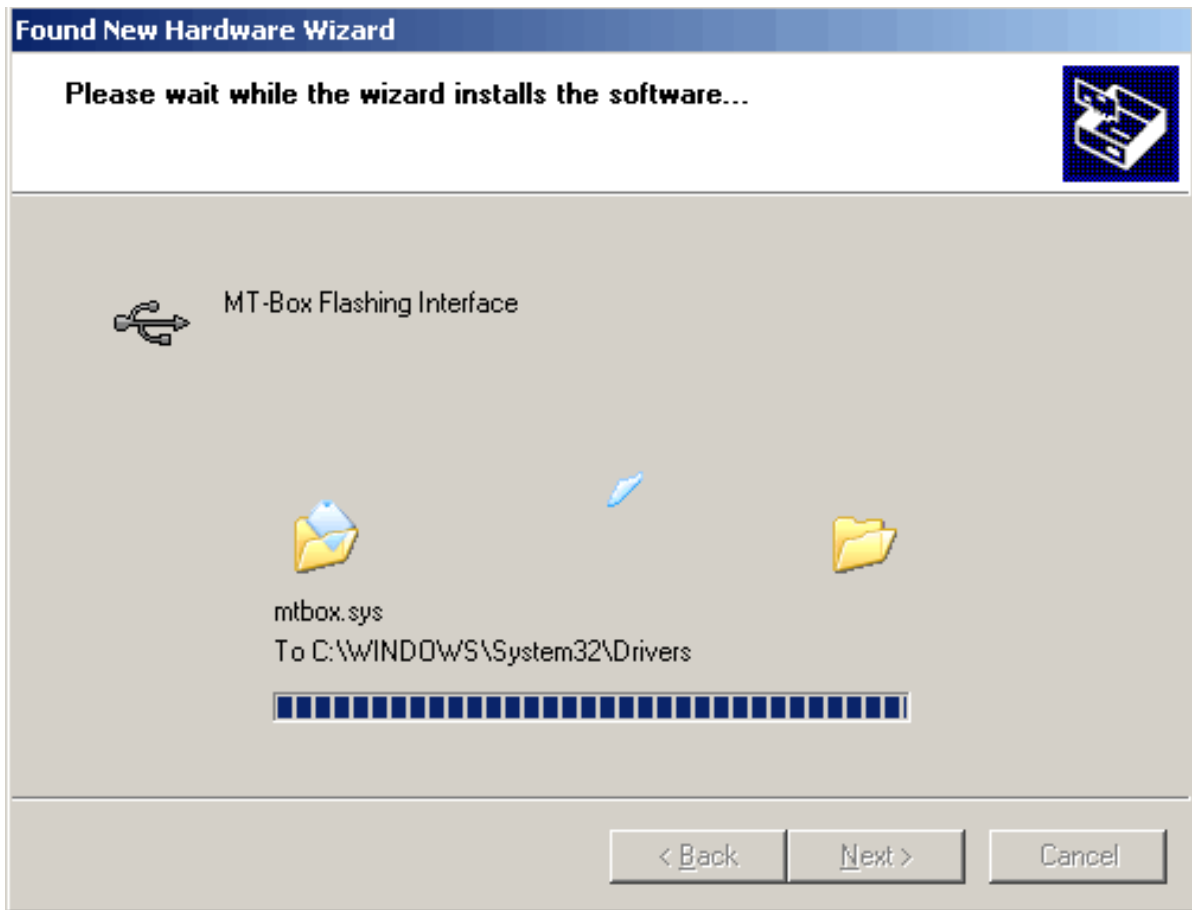

Select "Include this location in the search", click to Browse, point to downloaded drivers, then press Next button

Select "Continue Anyway"

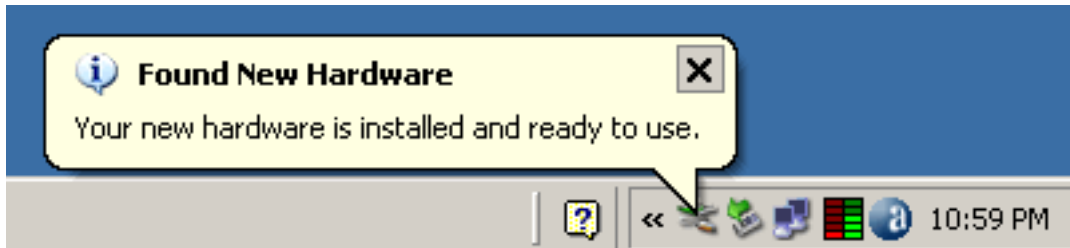

Drivers installing in progress

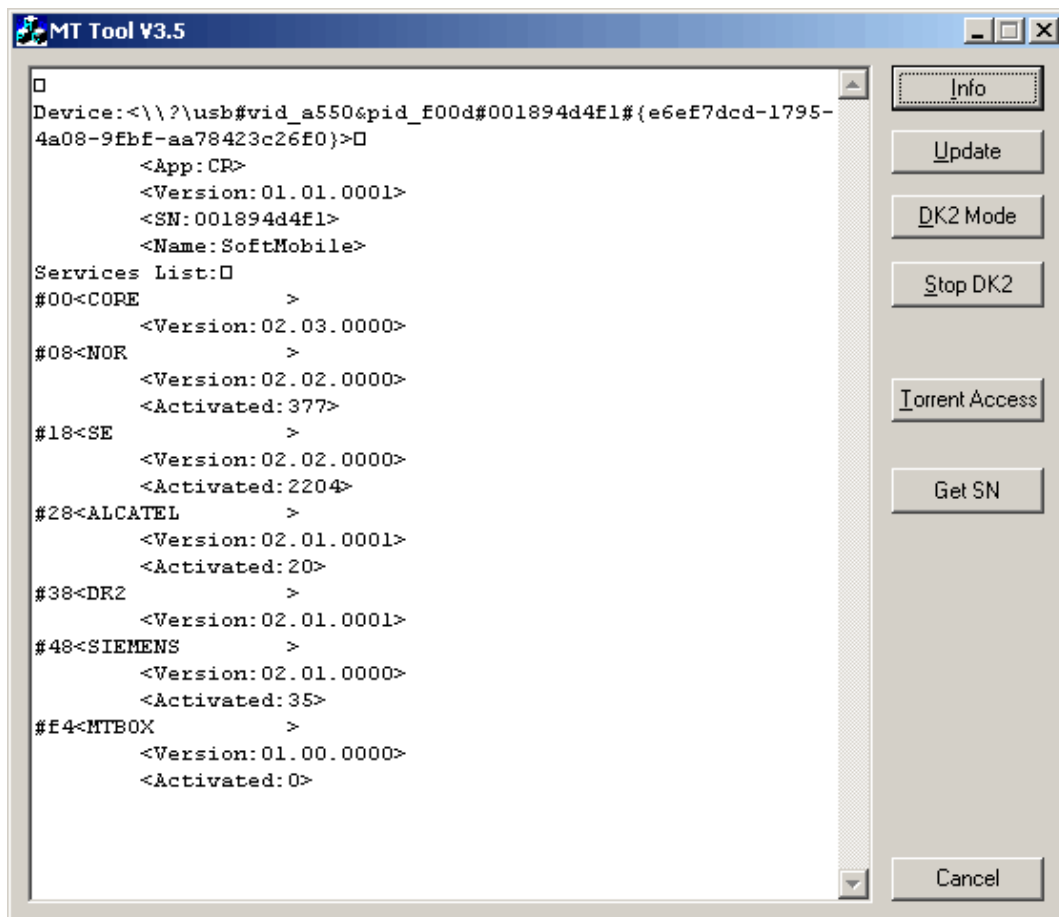

Drivers installed

You are ready now

Now start MT update tool v3.5, the press Info button.

Now you need to register your box to able download updates, flash files etc

The image shows a screenshot of a web browser displaying the MT-Box website and a separate window for the MT Tool V3.5.
